THIS YEAR THE GREAT PACIFIC
GARBAGE PATCH HAS BECOME
4 TIMES BIGGER THAN FLORYDA.
SOON IN THE OCEANS THERE WILL
BE MORE PLASTIC THAN FISH.

THE WORLD NEEDS A **CHANGE**

At SADDAR, we believe that business can
and should change the world for the better.

**OUR MISSION IS TO TRANSFORM WHAT IS A MAJOR PROBLEM
FOR THE ENVIRONMENT INTO NEW, REAL, AND VALUABLE SOLUTIONS.**

THE POLISH ANSWER TO GLOBAL PROBLEMS - THE WORLD'S FIRST COMPOSITE ECO ANCHORS FABRICATED FROM RECYCLED PLASTIC PET BOTTLES!

WHO WE ARE

SUSTAINABILITY

We are independently owned **Family-run company** that has been successfully operating for over **30 years** on the **international markets**

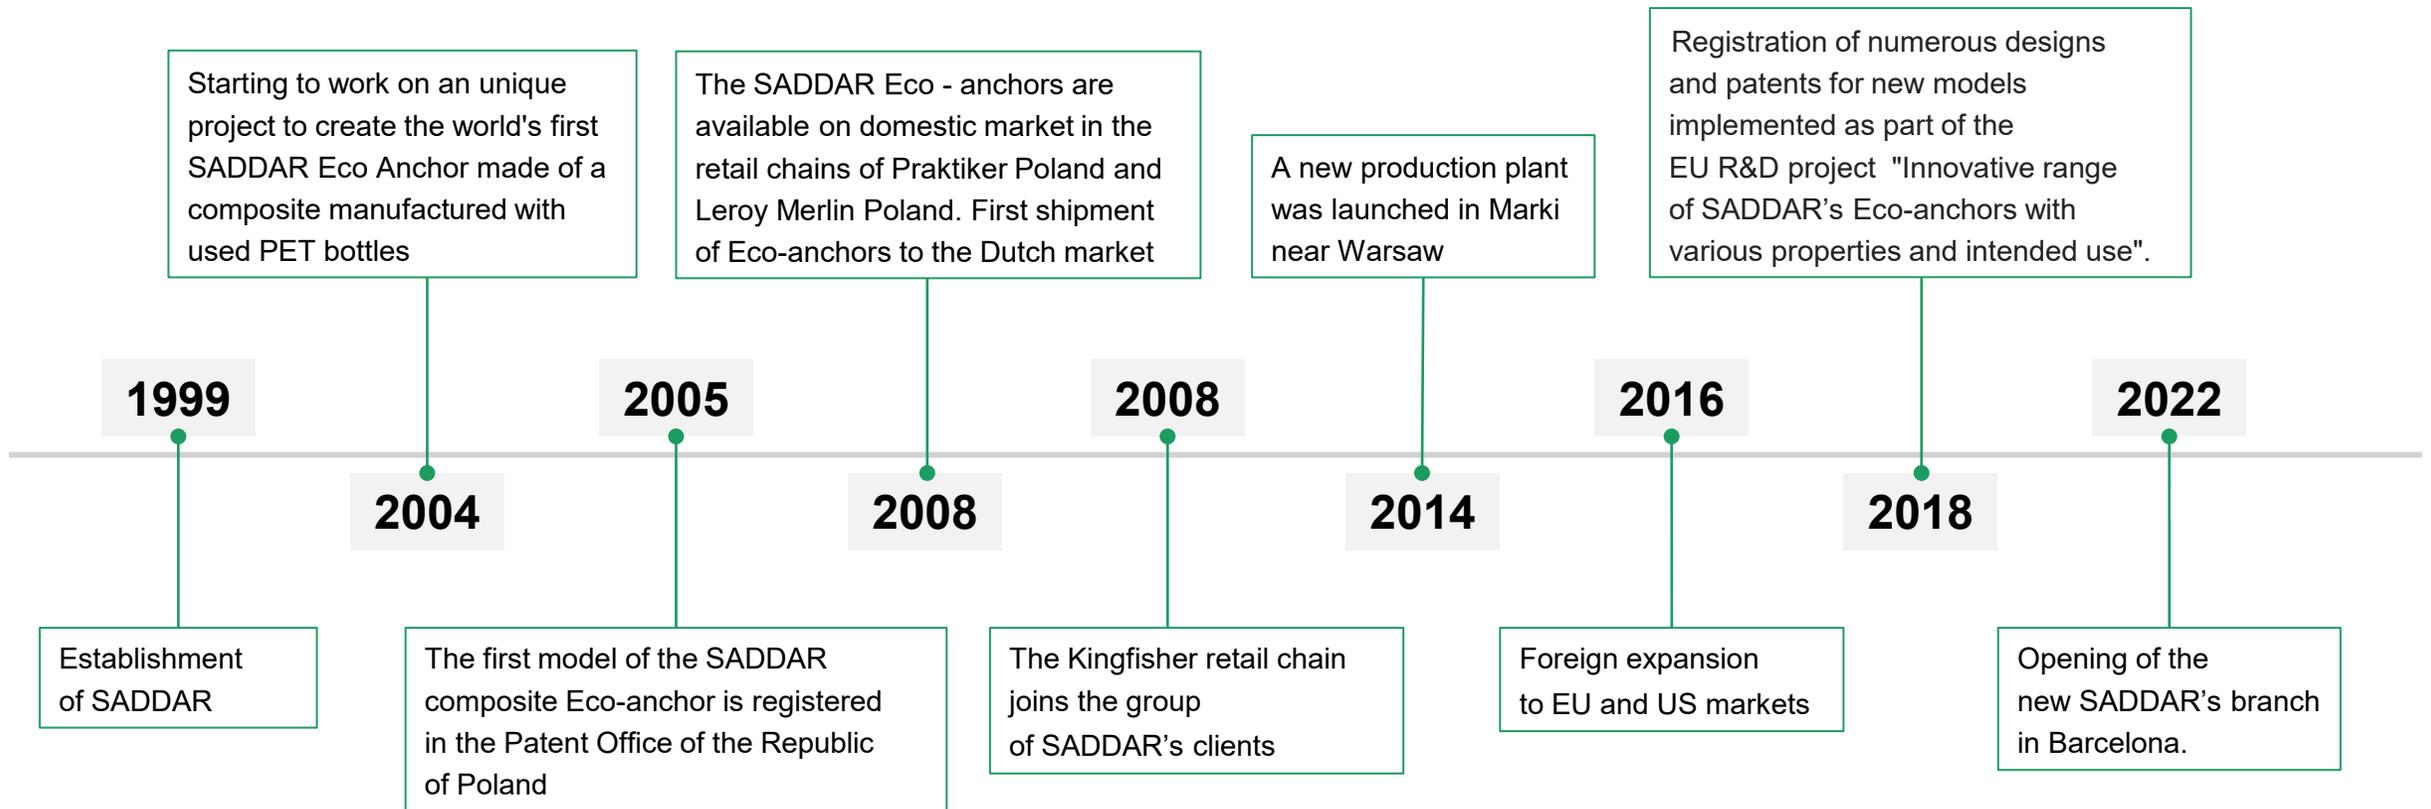

The production of **1.5 million eco-anchors per year** means that with the consumption of **20 bottles per one eco-anchor**, SADDAR can recycle up to 30 million plastic bottles.

OUR HISTORY

Building a business is not a sprint. It's a marathon.

PRODUCT RANGE

SADDAR Eco System For Professionals[©]
SADDAR Eco System for DiY[©]

PRODUCT RANGE

We have developed and implemented **an innovative and world-unique ecological anchors**. They are manufactured of world-unique **PET composite material specially constructed by ourselves**. It is chemically modified & glass fiber reinforced composite material **with high impact resistance, rigidity & tensile strength**.

The SADDAR eco anchors system is used widely in the **construction industry, garden architecture, and installation of photovoltaic farms**.

Our products are fully ecological and meet the requirements of the **circular economy**.

SADDAR Eco-products is an **environmentally friendly** alternative to steel products.

Utilising recycled PET bottles is a **great contribution towards saving our planet**.

SADDAR Eco System for DiY

In our portfolio there are dozens of models grouped **in five main categories**:

SADDAR Eco Anchors hammer in and screwed in into almost any type of soil or surface, fastening or embedding into concrete. We are also producing Eco Posts and Eco Spikes for widely used fencing systems. Full range of our products are available here: www.saddar.eu

SADDAR Eco System For Professionals

SADDAR Eco- Screwed point foundations for a frame, modular or wooden houses also known as ground screws or helical piers **are the green alternative of the future to traditional concrete foundations** – flexible, removable and greener. They create a secure anchor for supporting or stabilizing existing structures like houses, often replacing traditional concrete footings or fixing settling issues.

SADDAR ECO PRODUCTS REACH CUSTOMERS IN EUROPE & USA

HELPFUL COOPERATION

- ✓ Cooperation with Mazovia Energy Agency, within the Greet-CE Projekt. Promotional activities and events aimed at advancing energy transition
- ✓ Presenting SADDAR products to wider audience, building synergies, showcase solutions on international stage.
- ✓ Participation in networking and knowledge exchange events, including Mazovia Development Forum and the Clean Air Forum

WE VERY MUCH APPRECIATE, THANK YOU 😊

Ambitious R&D plans
Europe-wide and global expansion
Large-scale, cross-border solutions in the field of
European Union renewable energy

WE NEED YOUR SUPPORT HERE 😊

Eco Anchors needed for:

- cross-border renewable energy
- large-scale solar farms projects
- modular home constructions
- ecological fencing systems along highways

WE ARE HERE FOR YOU 😊

Looking forward to our cooperation
