Local Energy Agency of Gorenjska

Local Energy Agency of Gorenjska is a public institution founded by the City Municipality of Kranj in 2009.

We are energy manager for 12 municipalities in Slovenia, covering an area of 200.000 citizens.

LEAG currently employs 8 people.

We offer consultation to municipalities and companies on energy management, preparation of documentation for tenders, use of Renewable Energy Sources and the documents required by law.

LEAG main activities

Energy management for municipalities
and companies

Implementation of energy bookkeeping in
municipalities

Assisting local institutions in planning
projects to reduce energy consumption
and maximize energy efficiency

Preparation of documentation for tenders
and the documents required by law

Preparation of DIIP - Document of
Identification of Investment Project

Preparation of energy audits

Issuing energy certificates

Management, coordination and
dissemination of EU projects

(Horizon 2020, Interreg Europe, Interreg
Slovenia-Italy, Erasmus+, etc.)

Preparation of a regional SECAP
(18 municipalities)

Promotion of good practices in RES and
RUE

Education in Primary schools

Organization of seminars and workshops,
excursions

Active participation at conferences and
international symposiums

Publication of scientific articles and
literature

TITLE	ACRONYM	PROJECT ID
INNOVating the uptake of Energy Auditing Schemes for SMEs	INNOVEAS	847095
Mobilization of innovative design tools for refurbishing of buildings at district level	MODER	680447

MODER

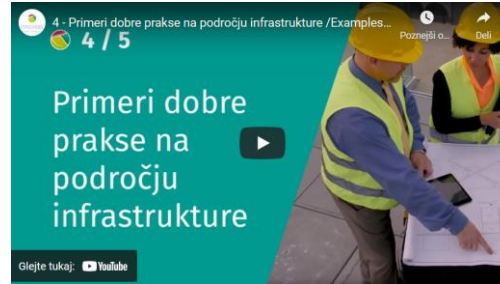

- ▶ Introduction of innovative tools and processes for the planning of energy renovation of buildings at district level.
- ▶ The project developed cost-effective, energy-efficient, user-friendly tools and strategies for the renovation of buildings as part of the entire district energy system.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement N° 680447

- ▶ Encourage the implementation of energy audits in small and medium-sized enterprises

- ▶ Lower energy consumption of SMEs

- ▶ Create a comprehensive, structured and self-sufficient offer that will promote and establish the production of energy audits
