Accelerating Hydrogen Ecosystem

Webinar, December 7 2022

Time: 14:30-16:30 CET/15:30-17:30 EET

Lithuanian RDI Liaison Office in Brussels (LINO), the NCBR Office in Brussels – Business & Science Poland, the Slovenian Business & Research Association, the European Office of Cyprus – Brussels Office, Eötvös Loránd University and the National Research, Development, and Innovation Office in Hungary would like to invite you to participate in the online event “Accelerating Hydrogen Ecosystem”.

Clean hydrogen will have a central place in the climate-neutral economy of the future, and Europe must play a key role as the world's clean hydrogen trailblazer. This year in the “State of the European Union” (SOTEU), President of the European Commission Ursula von der Leyen announced the intention of creating a new “European Hydrogen Bank”, which will help guarantee the purchase of hydrogen and invest €3 billion to construct a future hydrogen market. This bank will facilitate the creation of a market for green hydrogen in the EU, by bridging the investment gap and connecting future supply and demand. The essential element of hydrogen as an energy and industrial component requires the infrastructure, which is made of different parts.

The goal of this event is to learn more about the EU's hydrogen policy and clarify the principles of a Hydrogen Bank and hydrogen infrastructure and encourage cooperation in response to the SOTEU speech. During this webinar, we will showcase best examples in research, industry and industrial infrastructure such as transformation of the mobility sector with hydrogen; clean hydrogen in industry and creation of the clean hydrogen valley.

A final confirmation and program with speakers will be sent one day before the event.

Please register via the provided [link](#). The deadline for registration is Monday 12:00 PM CET, 5 December. A final confirmation will be sent few days before the event. Please feel free to forward this invitation to interested colleagues.

AGENDA

CEST	
14:30 - 14:40	Welcome by the organisers
14:40 - 15:00	Introduction to the Hydrogen Bank and Valleys: the concept, types and impact on the EU's R&I and energy/materials future – Mrs Helene CHRAYE, DG Research & Innovation, European Commission
15:00 - 16:15	Showcasing the best examples: <ul style="list-style-type: none"> - Transforming the mobility sector with hydrogen (dr. Attila Nyikos, Executive Director Hungarian Hydrogen Technology Association) - Clean Hydrogen in Industry (glass) (Tilen Sever, Steklarna Hrastnik) - Hydrogen Infrastructure (Grzegorz Józwiak, Director of Alternative Fuels Department, PKN Orlen) - Creating the Clean Hydrogen Valley (Darius Biekša, Green Genius) Moderated by: Ms Maja Ferlinc, SBRA Senior Economic Advisor
16:15 - 16:30	Q&A session
