Convergence as the driving force of typological change in Nahuatl

<https://doi.org/10.1515/stuf-2018-0018>

Abstract: This paper is based on external reconstruction of the history of contact between Nahuatl and Spanish until the first encounter with Spanish until the peripheral and central varieties. We try

Academic impact

Establishing an international Centre for Research and Practice in Cultural Continuity

- University of Warsaw
- School of Oriental and African Studies (SOAS), University of London
- Universiteit Leiden, Faculty of Archaeology
- Max Planck Institute (MPI) for the Science of Human History
- University of Groningen, Fryslân Campus

MAX-PLANCK-GESELLSCHAFT

Revitalising endangered languages: a service for all

Bringing a language back from the brink is not just a way to preserve cultural diversity. It is also an investment in a more inclusive society where a wider variety of citizens can thrive. EU-funded researchers are pioneering new approaches and techniques.
