

## Short biography

**Marian SAVU** is currently Policy Officer Industry Engagement and EU Policies in the Industry, Synergies and Enablers Directorate / European Defence Agency (EDA). He was previously seconded in EDA as Senior / Policy Officer for Defence Industry between November 2012 and December 2016 leading mainly the activities on defence-related SMEs and clusters.

Before joining the EDA as seconded national expert, he was military adviser to the Secretary of State for Armaments (National Armament Director) coordinating various activities in the Armaments Department/Romanian MoD related to acquisition policies, regulations, major procurements and relation with defence industry.

Marian Savu graduated Technical Military Academy in 1991 as engineer in armament and artillery equipment and worked in different leading and execution positions in maintenance of defence systems, international trade and defence procurement domains. He is also graduated in law since 1999 and holds postgraduate degrees in system engineering for defence and international defence management. He is married and has one son.
