

Matej GAJZER

Managing Director of TECES | President of the Slovenian Energy and Environment Partnership in Defence – SiEnE

Matej Gajzer is managing director of TECES, a leading Slovenian innovation cluster on green technologies and energy-efficient solutions. He is also a president of the Slovenian Energy and Environment Partnership in Defence (SiEnE), established in 2020 by TECES and the Ministry of Defence of the Republic of Slovenia.

Since 2020 he has been a member of the EDA Energy and Environment Working Group (EnE WG), appointed as a national CapTech non-Governmental Expert (SI CnGE), and a member of the Consultation Forum for Sustainable Energy in the Defence and Security Sector (CF SEDSS).

With over 25 years of experience, he is specialised in business development and open innovation, fostering R&D collaboration and establishing long term strategic development partnerships based on the triple-helix innovation model (industry, university, government).

He has extensive knowledge of Slovenian civil stakeholders' research & development & manufacturing capabilities from the electro and electronics industry, ICT, energy and construction sector.
