# Admissibility & Eligibility

## *Admissibility*

- Applications must be **complete** and contain all parts and mandatory annexes and supporting documents.
- Applications must be **readable, accessible and printable**.
- Applications must include a **plan for the exploitation and dissemination of results including communication activities** (n/a for applications at the first stage of two-stage procedures or unless otherwise provided in the specific call conditions).
- Specific **page limits** per type of action normally apply (specified in the topic conditions and controlled by IT tool).
- Blind Evaluation - **Disclosure of applicants' identity**

## *Eligibility*

# WP2023/2024: NOVELTIES!!!!!!

## LUMP SUMS:

- Template and guidance documents available in **GOFUND**
- Evaluation of proposals against standard evaluation criteria of HE . Cost estimation will be assessed under « **Implementation** » criteria
- Experts will ensure that:
  - cost estimation is reasonable and non no excessive
  - That resources proposed and the split of lump sum allow completing the activities described in the proposal
  - Overestimation of costs leads to a decrease of score

**BLIND EVALUATION:** The 'blind evaluation' approach means that at stage one of the evaluation process the applicants' identity will not be revealed to the experts. The second stage, in which full proposals are submitted, will not be anonymised though.

# Submission and evaluation of lump sum proposals

- Use the **standard proposal template**
- Describe in detail the activities covered by each work package.
- To define and justify the lump sum, you need to provide detailed breakdown of cost estimations. The estimates must be an approximation of your actual costs and meet the basic eligibility criteria of Horizon Europe.
- You find the **MS Excel template to prepare your detailed costs estimations** in the submission tool.
- The cost estimations are used to **generate automatically a breakdown of lump sum shares per work package and per participant** (i.e., beneficiaries and affiliated entities, if any).

# Evaluation (award) criteria

## Three evaluation criteria – equally important!

‘**Excellence**’, ‘**Impact**’ and ‘**Quality and efficiency of the implementation**’.

(Only two evaluation criteria - first stage of two-stage calls)

- Evaluation criteria are **adapted** to each **type of action**, as specified in the WP;
- Each criterion includes the ‘**aspects to be taken into account**’. The same aspect is not included in different criteria, so it is not assessed twice;
  - ✓ Follow Application **Template Part B instructions** as well as the **topic requirements!**
  - ✓ See **General Annexes** section D - Award criteria!
- For **Innovation Actions**, the criterion **Impact** is given a **weight of 1.5** to determine the ranking.

## DO

- Read carefully the Work Programme & Frequent Asked Questions;
- Regularly check for topic updates on F&T portal;
- Pay attention to Call/Topic Conditions;
- Follow the templates provided in the Submission System;
- Read the evaluation criteria (HE General Annexes);
- Submit as many times you wish;

## DON'T

- Don't include activities not eligible for funding;
- Proposed activities should have an exclusive focus on civil applications;
- Don't forget to mark "resubmission" when relevant;
- Do not add information where it does not belong;
- Don't wait until the last minute;
- Blind evaluation – do not disclose applicants' identity;
