

Informativni dan Obzorje 2020

GZS, Ljubljana

9. oktober 2015

5. družbeni izziv: podnebni ukrepi, okolje, učinkovita raba virov in surovine

Societal Challenge 5: Climate action, environment,
resource efficiency and raw materials

Petra Žagar, SC5 NCP

Ministrstvo za izobraževanje, znanost in šport

Direktorat za znanost

Pregled predstavitve

- 1) Stanje
- 2) Rezultati 2014-2015
- 3) Struktura delovnega programa 2014-2015 vs. 2016-2017
- 4) Tematski sklopi v delovnem programu 2016-2017 ter relevantni dokumenti in iniciative
- 5) Nasveti

1 STANJE

- Delovni program 2016-2017
 - Vsa mnenja PO so prejeta
 - Sprejetje in potrditev predvidena za 13. oktober 2015, objava razpisov 14. oktobra 2015 na Participant Portal
- Posodobitev delavnega programa 2017
 - Razjasnjevanje ERA-NET Co-fund aktivnosti (FPA)
 - Potrditev proračuna za leto 2017
 - Diskusija s člani PO Q1/2016
 - Sprejetje in potrditev predvidena za julij 2016

2 REZULTATI 2014-2015

EK je preko razpisov iz leta 2014 in 2015 one-stage sofinancirala **102 projekta**. Tu so zajeti razpisi:

- 5. družbenega izziva ("okolje"):
SC5, WATER, WASTE, vključno SMEinstrument
- 2. družbenega izziva ("bio"):
BG (topic blue growth, polar research)
- 3. družbenega izziva ("energija"):
EE (topic renovation historic build.)
- 7. družbenega izziva ("varnost"):
DRS (topic Climate change)

Struktura SC5 v H2020 (1/2)

5.	CLIMATE ACTION, ENVIRONMENT, RESOURCE EFFICIENCY AND RAW MATERIALS
5.1.	Fighting and adapting to climate change 5.1.1 Improving the understanding of climate change and the provision of reliable climate projections 5.1.2 Assessing impacts and vulnerabilities and developing innovative cost-effective adaptation, risk prevention and management measures 5.1.3 Supporting mitigation policies, including studies that focus on impact from other sectoral policies
5.2.	Protecting the environment, sustainably managing natural resources, water, biodiversity and ecosystems 5.2.1 Furthering our understanding of biodiversity and the functioning of ecosystems, their interactions with social systems and their role in sustaining the economy and human well-being 5.2.2 Developing integrated approaches to address water-related challenges and the transition to sustainable management and use of water resources and services 5.2.3 Providing knowledge and tools for effective decision making and public engagement
5.3.	Ensuring the sustainable supply of non-energy and non-agricultural raw materials 5.3.1 Improving the knowledge base on the availability of raw materials 5.3.2 Promoting the sustainable supply and use of raw materials, including mineral resources, from land and sea, covering exploration, extraction, processing, re-use ,recycling and recovery 5.3.3 Finding alternatives for critical raw materials 5.3.4 Improving societal awareness and skills on raw materials

Struktura SC5 v H2020 (2/2)

5.	CLIMATE ACTION, ENVIRONMENT, RESOURCE EFFICIENCY AND RAW MATERIALS
5.4.	Enabling the transition towards a green economy and society through eco-innovation
5.4.1	Strengthening eco-innovative technologies, processes, services and products, including exploring ways to reduce the quantities of raw materials in production and consumption, overcoming barriers in this context and boosting their market uptake
5.4.2	Supporting innovative policies and societal changes
5.4.3	Measuring and assessing progress towards a green economy
5.4.4	Fostering resource efficiency through digital systems
5.5.	Developing comprehensive and sustained global environmental observation and information systems
5.6.	Cultural heritage
5.6.1	Identifying resilience levels via observations, monitoring and modelling
5.6.2	Providing for a better understanding on how communities perceive and respond to climate change and seismic and volcanic hazards
5.7.	Specific implementation aspects

Calls for proposals	2014			2015
	WP 2014 Budget (m€)	EU contrib. (m€)	Deviation	WP 2015 Budget (m€)
SC5	166	174.05	4.8%	185
WASTE	59	66.05	11.9%	44
WATER	67	63.74	-4.9%	93

Disaster-resilience	18	17.75	-1.4%	28
FTI pilot	0			7.15
Total	338	349.37	3.4%	372.15

- Razpisi DP SC5 2014 & 2015:
 - Growing a low carbon, resource efficient economy with sustainable supply of raw materials (**SC5**)
 - **Waste:** A resource to recycle, reuse and recover raw materials
 - **Water** innovation: Boosting its value for Europe
- Udeležba v drugih DP
 - Energy efficiency (SC3)
 - Disaster-resilience: safeguarding and securing society, including adapting to climate change (SC7)
 - Blue growth: Unlocking the potential of seas and oceans (SC2)
 - Fast track to innovation – Pilot (2015)

NATURE-BASED SOLUTIONS:

- For territorial resilience
- For sustainable cities

NATURE-BASED SOLUTIONS:

- For territorial resilience
- For sustainable cities

ANNEX 1: DEFINITION OF NATURE-BASED SOLUTIONS

Nature-based solutions aim to help societies address a variety of environmental, social and economic challenges in sustainable ways. They are actions inspired by, supported by or copied

Nature-based solutions – what are they?¹

Nature-based solutions aim to help societies address a variety of environmental, social and economic challenges in sustainable ways. They are actions which are inspired by, supported by or copied from nature. Some involve using and enhancing existing natural solutions to challenges, while others are exploring more novel solutions, for example mimicking how non-human organisms and communities cope with environmental extremes. Nature-based solutions use the features and complex system processes of nature, such as its ability to store carbon and regulate water flow, in order to achieve desired outcomes, such as reduced disaster risk, improved human well-being and socially inclusive green growth. Maintaining and enhancing natural capital, therefore, is of crucial importance, as it forms the basis for implementing solutions. These nature-based solutions ideally are energy and resource-efficient, and resilient to change, but to be successful they must be adapted to local conditions.

Ecosystems, including human actions and their consequences. Nature-based solutions, however, have a distinctive set of premises: (i) some societal challenges stem from human activities that have failed to recognize ecological limitations; (ii) sustainable alternatives to those activities can be found by looking to nature for design and process knowledge. They therefore involve the innovative application of knowledge about nature, inspired and supported by nature, and they maintain and enhance natural capital. They are positive responses to societal challenges, and can have the potential to simultaneously meet environmental, social and economic objectives.

There has been much debate over the components of nature-based solutions and, within the current EU framework, nature-based solutions exclude methods that artificially alter nature, such as genetically modified organisms.

NATURE-BASED SOLUTIONS:

- For territorial resilience
- For sustainable cities

Nature-based solutions (NBS) for territorial resilience

Water

[European Innovation Partnership \(EIP\) on Water](#)

[Joint Programming Initiative on Water](#)

5 Nasveti

- ODPRT razpis za eksperte

<http://ec.europa.eu/easme/en/call-experts-climate-action-environment-resources-management>

- SELF-EVALUATION FORM (RIA, IA, CSA)

http://ec.europa.eu/research/participants/data/ref/h2020/call_ptef/ef/h2020-call-ef-ria-ia-csa_en.pdf

- Preoblikovan PARTICIPANT PORTAL

- IMPACT !!!

- SPREMEMBE ANEKSOV (A-K)

- A. Seznam držav upravičenih za (so)financiranje – pridružene članice:

- dodana: Ukrajina

- B. Standardni pogoji predlogov:

- Osnutek načrta rabe in diseminacije rezultatov je obvezen pri končni oddaji predloga
 - omejitev števila strani ,full proposal' (70, 50, 10 strani)

- F. Evalvacija

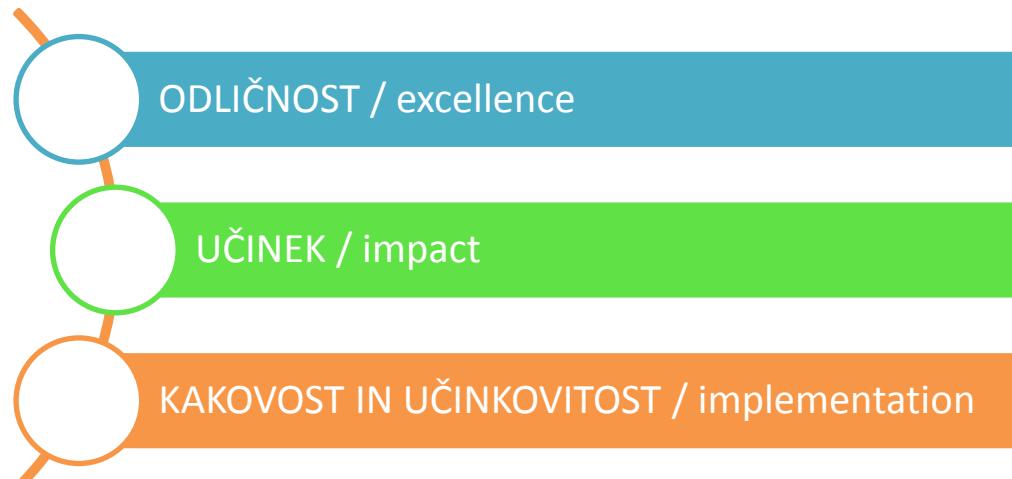

- Podrobnejša razlaga "aspects to be taken into account", pri vsakem merilu:
 - Excellence – refer to "inter-disciplinarity" and cross-sector/stakeholder involvement as appropriate
 - Impact – streamlined wording; emphasising more the impact statement in the work-programme topics
 - Implementation – each partner should have important role, and resources to match; clarifying that over-inflated work-packages penalised
 - „Dynamic threshold“ za prvo-fazo pri dvo-faznih razpisih

- G. Zaupni podatki

- Novi priročnik: Guidelines for the classification of research results (23.2.2015)

- Ocenjevanje predlogov / 3 merila:

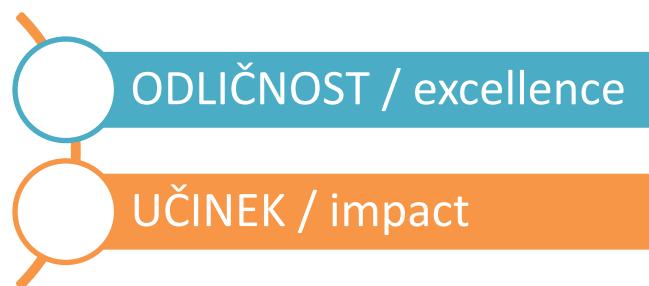

- 0 - proposal fails to address the criterion
- 1 - poor
- 2 - fair
- 3 - good
- 4 - very good
- 5 - excellent

- Vsako od 3 meril max 5T (15T max)
- Točkovanje 0-5T, tudi 0'5T
- Threshold pri posameznem merilu je 3/5T, overall (vsota 3 meril) 10/15

Za **two-stage** sheme:

- Za 1st stage se ocenjujeta merili
- Threshold za posamezno merilo 4/5T
- Weight merila *Učinek* je 1,5

- KAJ JE POMEMBNO PRI POSAMEZNEM MERILU

ODLIČNOST / excellence

- potrebno predstaviti realističen načrt izvedbe projekta, z jasnimi cilji
- hkrati biti dovolj ambiciozen in inovativen
- evalvator mora razumeti predlog projekta po prvem branju
- opisati je potrebno ,plan B' (risk management)

UČINEK / impact

- **pričakovani učinek opisan pri posamezni temi v delovnem programu**
- opisati kako bo vaš projekt dosegel pričakovani učinek
- opisati tudi gospodarski vpliv (več evalvatorjev iz poslovnega sektorja)
- opisati tudi družbeni in okoljski vpliv (vsak rezultat projekta na nekaj vpliva!)
- opisati korake, ki bodo potrebni za doseg tega učinka
- opisati zakaj je za ta projekt potreben evropski pristop (ne samo nacionalni ali lokalni)
- opisati predpostavke in zunanje dejavnike, ki lahko vplivajo na to, ali bo učinek dosežena ali ne
- poslovni načrt (ni obvezen, a priporočajo za IA)
- opisati kako se lahko/se bodo rezultati uporabili za – nove inovacije, - na trgu

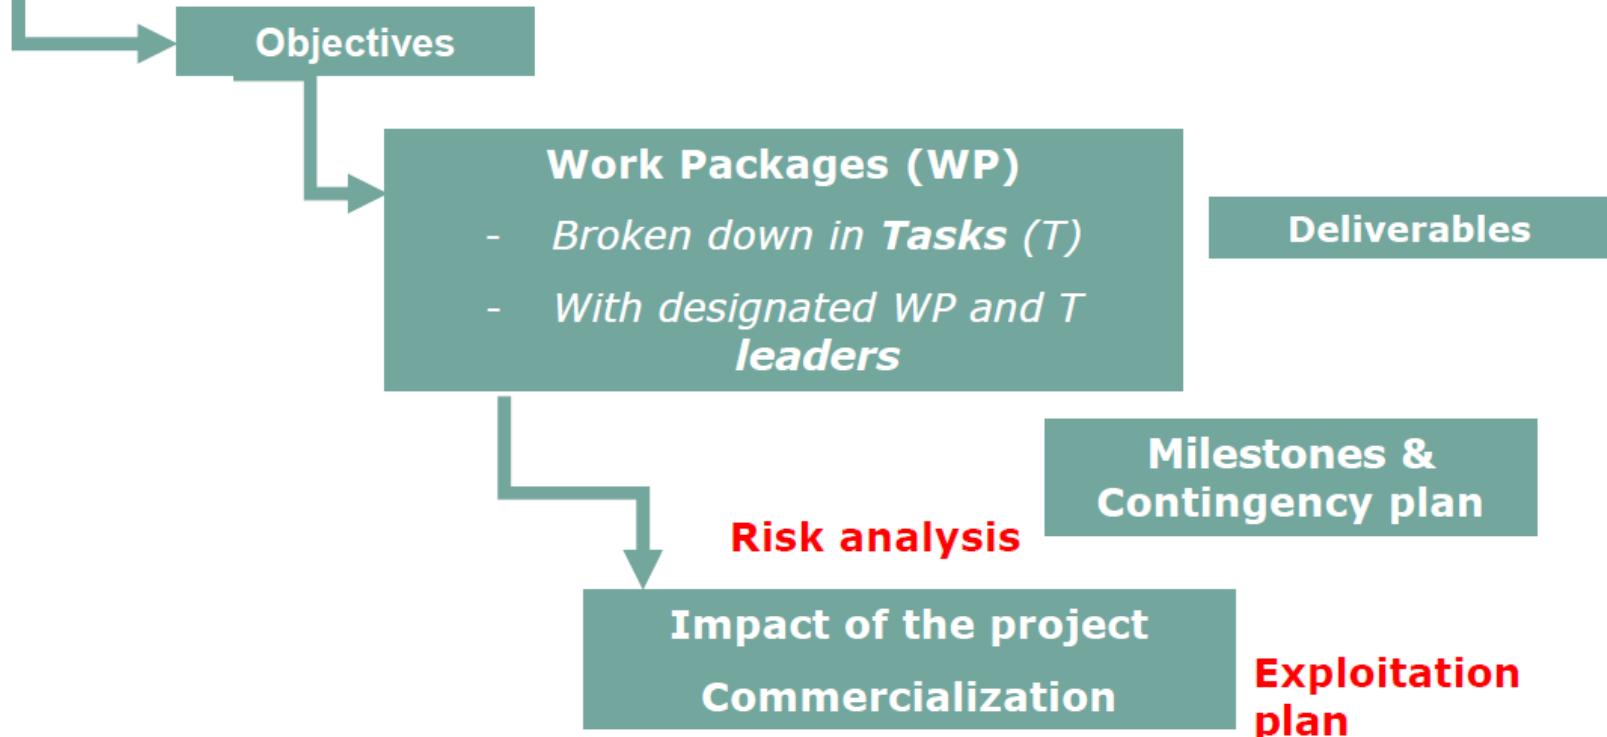

KAKOVOST IN UČINKOVITOST / implementation

Problem + State of the art (call for proposal)

Innovation!
Beyond the state of the art

- Enostranski predlog projekta
- **Acknowledgments: Hyperion – Sean Mc Carthy**
- Topic
- Title (Slogan) + Acronym (Brand name)
- Objective: What you are planning to do
- Background: Why you are doing it (5 key questions)
- Impact: Results + Target groups (who wants them)
- Science: How the work will be done
- Consortium: Who will do the work
- Cost & duration: How much + How long

- 5 ključnih vprašanj
- **Acknowledgments: Hyperion – Sean Mc Carthy**
- Why bother?
 - What new knowledge are you generating?
 - What problem are you trying to solve?
- Is it of EU relevance?
 - Could it be solved at national level?
 - Will this establish Europe as international leader?
- Is the knowledge / solution already available?
 - State of the art
- Why now?
- Why you? Are you the best people to do the job?
- <https://www.youtube.com/watch?v=Men8eSNzxo8>

- 8 najpogostejših napak
 - predlog projekta je težko berljiv in dolgočasen
 - nejasen in preveč znanstveni žargon
 - premalo podatkov, da bi se razumelo ključne vidike projekta
 - nejasen, konfuzen work plan, s premalo detajli
 - nejasen opis stanja tehničnega razvoja (‘state of the art’)
 - slabo opredeljeni in utemeljeni človeški viri
 - nezadostne podrobnosti o potencialnem vplivu
 - pomanjkanje dokazov, ki bi podprli zapisane trditve

- Iskanje partnerjev

CORDIS	https://cordis.europa.eu/partners/web/guest
Nemško Zvezno ministrstvo za izobraževanje in raziskave (BBF)	https://www.nks-umwelt.de/index.php?index=167
Italijanska Agencija za promocijo evropskih raziskav (APRE)	http://partnersearch.apre.it/

The screenshot shows the CORDIS homepage with a search bar for "Looking for research partners?". Below it, there's a sidebar with links for "Search for partners", "Query more with an advanced search", and "Contact National Contact Point networks". The main content area has a "Partnership tool" section with a login form and a "Post a Partner Offer/Request" button.

The screenshot shows the "Partnering tool" section of the NKS-Umwelt website. It features a search bar for "Post a Partner Offer/Request" and a "List of Partner Offers/Requests". Below the search bar, there's a "Forgot your username or password?" link and a "Log in" button. The background shows a collage of letters (I, M, J, L, G, D, E) on papers.

The screenshot shows the APRE Partner Search Services page. It includes a search bar for "Code", "Keywords", "Country", "Status", "Objective/Topic", and "Funding Scheme". There are also sections for "Find a Partner Search", "Partner Search Database", and "Profile Database". The page is filled with various search filters and links related to project proposals and partner databases.
