BOĞAZIÇI UNIVERSITY – JEDI*

CENTER OF JOINT EXCELLENCE IN DIGITAL INNOVATION

OUR VISION

«Empowering JEDI (Boğaziçi University) through a dedicated unit to enhance EU engagement, foster interdisciplinary collaborations, drive innovation, and promote entrepreneurship for maximum impact in Horizon Europe and beyond.»

Set-up a unit

to fast track the transfer of know-how and human resources training to ensure:

- Participation in Horizon Europe framework programme and generate the maximum potential benefits for JEDI (Boğaziçi University),

Forging Networks

with key EU institutions, officials and leading stakeholders enabling proactive engagement in policy development and access to valuable guidance and support.

Supporting interdisciplinary collaborations

within the institution and with external partners, promoting synergies and fostering a collaborative research environment.

Developing a comprehensive, long-term strategy

for EU funding opportunities, incorporating targeted research areas, collaboration opportunities, and capacity-building initiatives.

Fostering an entrepreneurial mindset

and supporting the development of start-ups and spin-offs, contributing to the growth of the local and European innovation ecosystems.

Enhancing Awareness

and understanding of EU vision, goals and policies to align institutional strategies and project proposals with EU priorities

INTERGRADE - INCLUSIVE TECHNOLOGIES AND GRASSROOTS DEVELOPMENT FOR GENDER EQUITY IN DIGITAL HEALTH

- **Call:** HORIZON-WIDERA-2024-ERA-01-11
- **EU contribution per project:** Per project € 0.5-1 million
- **Projects to be funded:** 4
- **Type of action:** CSA
- **Deadline:** 12 Mar 2024

BOĞAZIÇI ÜNİVERSİTESİ
Center of Joint Excellence in Digital Innovation

INTERGRADE

The main goal:

- To synergistically integrate gender inclusivity and intersectional principles within the digital health ecosystem, aiming to enhance its adaptability, resilience, and responsiveness to contemporary challenges. By fostering collaborations, capacity-building, and continuous feedback mechanisms, the project aspires to set a gold standard for gender-sensitive digital health practices, ensuring equitable access, innovation, and advancement in the sector for all stakeholders, especially within less advanced institutions.
- This, in turn, will contribute robustly to the broader European Research Area (ERA) policy objectives, reinforcing gender equality and inclusiveness in research and innovation.
